

MIRAI Sustainability Workshop March 28-29, 2019 at Tokyo Institute of Technology

Theme: Pathways to Achieving the Sustainable Development Goals (SDGs)

The aim of this workshop is to suggest pathways to achieving the Sustainable Development Goals (SDGs). In the workshop, researchers will discuss how they can contribute to SDGs through their research and collaborations. Topics will include energy and technology, water resources, etc. which we have discussed so far, and other topics of interest.

We have already discussed a number of collaborative research projects in the previous workshops. Some projects have already started and the others were at the proposal stage. In this workshop, researchers will discuss global and cross-disciplinary research ideas and identify funding opportunities in Japan and Sweden. This workshop will be a milestone for MIRAI SSC activities in the first project term (2017-2019).

Sub-topics:

- 1.) Solutions for energy Issues
- 2.) Solutions for water resources
- 3.) Solutions for other Sustainability related issues

Venue:

Tokyo Institute of Technology, Ookayama Campus,
Centennial Hall (Museum), 4th floor
