

# Kyushu University Foreign Students Association

## 九州大学留学生会

KUFSA (Kyushu University Foreign Students Association) is an organization that represents all foreign students enrolled at Kyushu University (Kyudai). Every year, Kyudai opens its doors to foreign students from various countries and this enables them to automatically become members of KUFSA. Nowadays, KUFSA has students representing up to 70 nationalities, thus fusing culture and customs from all around the world.

To ensure these students' happiness, various activities that promote a healthy environment and balance of daily life, study and play, are conducted annually. Our goal is to promote cooperation, collaboration, and friendship not only among foreigners, but also with the Japanese people. In ensuring a strong bridge between Japan and the world, KUFSA highlights useful information about living in Fukuoka. We wish that you enjoy your stay and capture many wonderful life-challenging experiences, as well as fond memories that will resonate within you. May your studies be fruitful and your life be enriched.

Our objectives:

- Promote friendship and exchange among international students from more than 70 countries and the Japanese people.
- Strengthen the linkage among students in general and through this, develop mutual respect, broaden their vision, and share a common environment in which they can show their diversified cultural background and their advanced academic training.
- Enhance students' understanding of the conditions and customs of various nationalities, different eating habits, etc., so as to broaden their international vision.
