

Succeeding in academic careers in Japan

We will hold a wide-ranging discussion on effective ways for foreign scholars to further their academic careers in Japan. This will include an introduction to the recent history of foreign scholars working in Japan, details about the ways universities and departments decide on promotions and leadership appointments, and an open discussion among the participants on different kinds of success, and their experiences in striving for the kinds of success they seek.

Wednesday, September 27th

In-person and Hybrid
