

Towards a More Inclusive Kyushu University: On-Campus, Off-Campus, and Beyond

This online FD session invites participants to reflect on the meaning and practice of inclusion at Kyushu University. Drawing from the SIAG proposal and Vision 2030, two short presentations will highlight ongoing efforts such as bilingualization, inclusive evaluations, and community engagement through initiatives like Q-Angel. The session aims to raise awareness of structural and cultural challenges, encourage feedback on existing practices, and explore future directions for inclusive policy-making. Participants will be invited to share ideas through short Q&A and interactive prompts.
