Fair
2026 Fall

Register
Here

Session 1 (from 3:00PM)

University overview, support for international students, application procedures, scholarships, and a panel discussion with current students

Session 2 (from 4:00PM)

Individual consultations with each graduate school
Participating Graduate Schools:

Humanities

Join our session to learn about IMAP and IDOC, English-taught MA and PhD programs in Japanese history, art, architecture, religion, or the history of ideas.

Integrated Sciences for Global Society

The Graduate School of Integrated Sciences for Global Society fosters researchers and practitioners with advanced expertise and multifaceted perspectives to solve global problems, emphasizing fieldwork that sparks unexpected discoveries.

Law

High-level courses offered in all major fields of economic & business law and related fields, including Japanese Law. Diverse faculty of Japanese & international professors. Students from diverse, multinational backgrounds.

Engineering, Information Science and Electrical Engineering, Integrated Frontier Sciences

Explore world-class education and cutting-edge research in engineering, informationscience, and interdisciplinary studies at Kyushu University's leading graduate schools.

Design

We bring together scholars and practitioners across science, engineering, humanities, social sciences, and fine arts, fostering interdisciplinary education and research for design innovation. We aim to become a leading international design hub through broader research and partnerships.

Bioresource and Bioenvironmental Sciences

Join a dynamic international learning environment advancing sustainable solutions through interdisciplinary research, innovative science, and hands-on field experiences in bioresources and environmental systems.
